Art Unit: 3652

Detailed Action

- 1. The drawing is objected to under 37 CFR 1.83(a) as failing to show the parallel lines newly added to claim 1. At least a sketch of any proposed drawing change must be filed for review. The introduction of new matter should be guarded against.
- 2. Claims 2-15, 17 and 19-30 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made without traverse in Paper No. 4.
- 3. The amendment filed 05/31/02 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The amendments to pages 2, 7, 12, 20, 23, 26, 29, 35, 39 and 40 and the amendments to claims 1, 8, 22, 25 and 28, as they pertain to the amendments to the above noted pages.

Applicant is required to cancel the new matter in the reply to this Office Action.

- 4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 5. Claims 1, 16, 18, 30, 31 and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the meaning of the phrase "keeping parallel two lines including a line passing through the first and second end portions of the first arm link and a line symmetrical

with respect to the center line with the line passing through the first and second end portions of the second arm link" is unclear rendering the claim indefinite.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
